The Inclusion Council is an influential advisory group representing a broad range of demographic groups from across the sector to constructively advise on a range of PSC diversity and inclusion programs and policies.

Council members will contribute to discussions and use an intersectional approach to provide strategic advice on diversity policies and programs, challenge assumptions and represent their community's lived experiences to inform sound decision making.

The Council will be advisory and will not make decisions or govern diversity and inclusion strategy. The Council consists of 18 members, with no quotas for any diversity group.
