Behaving Ethically

Your manual on ethical behaviour as a NSW public sector employee.

You are required to behave in ways that are ethical, lawful and build trust in the sector. This means acting in ways that demonstrate our core values of Integrity, Trust, Service and Accountability.

With **the Ethical Framework** at its core the Behaving Ethically guide assists agencies to develop ethical cultures, leadership and workplace practices.

The guide includes examples, tools and templates to help you behave ethically and act in the public interest.
