Purpose

The NSW Public Service Senior Executive Remuneration Management Framework ('the Framework') has four purposes:

- To outline the approach, using an approved role evaluation methodology (Mercer/CED, OCR or Hay), for determining where within a senior executive band a role (or group of roles) is to be placed for the purpose of calculating its base remuneration point and discretionary remuneration range.
- To provide the formulas needed to calculate the base remuneration point and discretionary remuneration range for a senior executive role (or group of roles) based on the Statutory and Other Offices Remuneration Tribunal (SOORT) Determination for senior executives, which is effective 1 July each year.
- To provide guidance in the form of a Remuneration Decision Matrix about matters the Secretary or head of a separate agency may take into consideration when determining the remuneration of a senior executive upon assignment to a senior executive role.
- To outline the limited circumstances in which the following actions may be appropriate:

- the remuneration of a senior executive to progress along the discretionary remuneration range applying to the senior executive role.
- the Secretary or head of a separate agency to approve remuneration beyond the discretionary remuneration range,
- mechanisms to determine above band remuneration

What does remuneration mean?

Senior executives receive a total remuneration package (TRP), of which salary will be one component. Any reference to remuneration throughout the Framework is to a TRP, as defined in Appendix 3 Glossary of terms.

Who does the Framework apply to?

The Framework is a guide for all Public Service agencies as listed in Schedule 1 of the GSE Act in respect to GSE Act senior executives (bands 1-3).

The NSW Health Service, NSW Transport Service and NSW Police Force may use the Framework in respect to Health Service senior executives (refer section 121D (1) and (2) of the Health Services Act 1997), Transport Service senior executives (refer section 68F (1) and (2) of the Transport Administration Act 1988) and NSW Police Force senior executives (refer section 36 (1) and (2) of the Police Act 1990 as amended, commencing on 31 October 2017) as guidance provided by the Public Service Commissioner.

When is the Framework applied?

The Framework should be implemented as and when Secretaries and heads of separate agencies create GSE Act senior executive roles in bands 1 to 3 in order to determine the remuneration for those new roles. The Framework is also to be implemented when applying the annual SOORT determination increases and when considering progression over time within the discretionary remuneration range in accordance with the requirements of the agency's formal performance management system

Key Features

The Framework outlines the process for determining executive remuneration. The process is summarised in section 1.6 How to use the Framework – business case.

More detailed information on creating roles, determining the band, the base remuneration point and remuneration adjustments are outlined in sections 2 to 4.

The relevant formulas for determining the discretionary remuneration ranges and a remuneration decision matrix are provided in Appendices 1 and 2.

How to use the Framework – business process

Step 1: Create a senior executive role

Determine the band using the Senior Executive Work Level Standards and develop a role description using the Role Description Guideline (Refer 2.2 & 2.4).

Example outcome: Role determined is a senior executive Band 1

Step 2: Evaluate the role description for the role

Evaluate the role description using the agency's methodology (Mercer/CED, Hay or OCR) to determine the work value points and place the role within the band (Refer 2.5).

Example evaluation: Work value points using Mercer/CED evaluation is 680 points

Step 3: Determine the base remuneration point for the role

Calculate the base remuneration point (BRP) using the appropriate base remuneration formula (BRF) in Appendix 1, Table 1 (Mercer/CED, Hay or OCR for the relevant band 1, 2, or 3) and the individual work value points for the role obtained in Step 2 (Refer 3.1).

Example calculation: Mercer/CED BRF for Band 1 is: $176.198 \times 680 + 65,247 = \$185,062$ (the BRP)

Step 4: Determine the maximum discretionary remuneration range for the role

Obtain the maximum discretionary remuneration range for the role by adding the BRP for the role obtained in Step 3 with the appropriate discretionary remuneration range (DRR) for the band in Appendix 1, Table 2 (Refer 3.2).

Example calculation: DRR for Band 1 is up to \$21,943: $\$185,062$ (BRP) + $\$21,943$ (DRR) = $\$207,005$ (the maximum discretionary remuneration)

Step 5: Determine the initial remuneration for a senior executive assigned to a role

Determine where within the DRR for a role the individual senior executive should be paid using the Remuneration Decision Matrix in Appendix 3 (Refer 4.1).

Example calculation: Potential remuneration for the Band 1 role is \$185,062 (BRP) up to a maximum of \$207,005. Remuneration is determined at \$185,062 (the bottom of the range) based on the assessment of the individual senior executive's capability and knowledge & experience.

Step 6: Increase remuneration over time

SOORT Annual Determination

Apply the updated formulas for each senior executive role from 1 July each year (Refer 4.3).

Adjust each senior executive's current remuneration point to incorporate the determined increase from 1 July each year (Refer 4.3).

Performance Management System

Review senior executive's performance in accordance with the requirements of the agency's formal performance management system and approve progression within the discretionary remuneration range (Refer 4.2).

Access the framework

Creating a public service senior executive role

Key details on creating a senior executive role including determining band and creating a role description.

Remuneration for a new public service senior executive role

Key information on determining and applying a remuneration point.

Remuneration for a Public Service senior executive assigned to a role

Key information on remuneration for senior executives assigned to roles.

Reporting requirements

Annual reporting requirements on the remuneration and numbers of senior executives.

Authorities

A list of the legislation, determinations and resources used when determining where within a senior executive band a role is to be placed.

Appendix

Access information on the formulas, decision matrix and terms used in this framework.
