Project sector role descriptions

Executive and non-executive project role descriptions.

On this page

[Project executive role descriptions](#)

[Project grade roles](#)

The project sector role descriptions below were developed in consultation with the sector and reviewed by independent role design and evaluation experts.

They can be used across a range of workforce management activities, including recruitment, performance management, learning and development and career planning.

Each role description is in line with the [Role Description Development Guide](#) and identifies the capability levels required for the role from the [NSW Public Sector Capability Framework Version 2:2020](#).

Please refer to the [Sector Role Description Guide \(PDF 47kb\)](#) and the [sector role descriptions FAQs](#) for information on how to use and adapt them to meet agency needs.
